Dear Dylan,

Some people say you can achieve no greater accomplishment in life than having left the world a better place than when you came. If that is true -- and I believe it is -- then at the ripe old age of 34 you have already achieved greatness, as Virginia and the lives of so very many, are far better off because of your exceptional leadership as part of the team that literally built EV. Without sounding too much like a foot-board, let me say again, I am so immensely proud of you and awed by your talent, commitment and accomplishments. continued

I realize moving on to the next challenge is bitter-sweet, but I hope as you turn the page you are both very proud of the history you have helped write & also excited for the prospect of things to come. Whatever adventures are next, know always that we will share them together, side by side.

All my love,
